

Written 2-10-1957

From the diary of Thomas Lyon Fisher

1905

In Heber City I spent one full summer building. , April until until three days before Christmas. I had charge of putting a roof on the North, Central two story school house and fixed for the school two lower rooms. I had charge of the Red Sandstone business block containing a bank, , drug store and clothing store. We built a nice residence for John Austin, later sold to Dr. ~~Wheritt~~, also a home for Joseph R. Murdock, who was stake president. I came home three days before Christmas and haven't been back since. Two years later my lumber yard burned down so I lost most of my effort.
